ROCHESTER INSTITUTE OF TECHNOLOGY

SWEN610- FOUNDATIONS OF SOFTWRE ENGINEERING – (Section 01)

Fall 2020

<u>Term Reaction Paper</u> – Due on November 3rd (in myCourses)

1. Goal:

The main aim reaction paper is to give students a chance to articulate personal opinion and conclusions on a given article or abstract of published work. The reaction paper should contain thoughts on the problem, responses to the implied ideas, meaningful elaboration, and the evaluation and analysis of the inherent author(s) claims.

2. Assignment and Duties:

For this assignment, you will need to pick a full paper (10 pages) from one of the following proceedings:

- https://icsme2018.github.io/program/Accepted.html
- https://conf.researchr.org/info/icpc-2018/icpc-2018-program
- http://www.ieee-scam.org/2018/#program
- http://conferences.computer.org/icse/2018/#!/toc/0
- https://dl.acm.org/citation.cfm?id=3180155&picked=prox

<u>You are to read the paper and:</u>

- Provide your reaction and write a one-page review taking into consideration the following:
    - The contextualization of the paper (why is this research needed? Are there other related techniques?)
    - The results and core message of the paper
    - Give your thoughts on the conclusions, consents, layout, strength and weakness.
- Submit your review in MyCourses in **PDF** with the following naming convention:
    - *YourName*-SWEN610-ReactionPaper-11032020
